Venue : College Conference Hall

INVITATION

On behalf of the organizing committee, we extend an invitation to you to participate in the National Seminar on "India in the path of Prosperity : National Education Policy 2020" being organized by Govt. PG College, Bilaspur (Rampur), U.P. on 14-15 March 2021.

Welcome to Bilaspur, a small but beautiful town of Rampur District in western U.P. located on the Delhi-Kanpur-Noida National Highway. The college is situated at about 4 km. from the Bilaspur railway station and 1 km. from the city.

College: The college was established in 1996. With a student strength of more than 2000, the college is offering U.G. and P.G. programmes in faculties of Science, Arts and Commerce.

Themes: To commemorate 75 years of India's independence, the Government of India decided to create a New India, that is strong, Prosperous and all encompassing, an India that will make our freedom fight meaningful. The India to create a New India by 2022, an India that is devoid of corruption, is clean, has no poverty, is free of terrorism, has no distinction on the basis of caste and religion and sets the entire country by adopting Good Governance and use of advance technology. In the post covid India, the Govt. of India look upon the development and growth of "Smart India Mission", "Make in India, Make for India and Make for the world". This is achievable only through consistent innovation and development of technology.

The National Education Policy 2020 is a historic step in that direction, to maximize the output of New India, which is self-reliant and a world leader in all spheres of life. It builds a new culture, a new paradigm of pedagogy that is inspired by revolutionary knowledge and innovation in India. At the same time it aims to result in the youth of the nation of rational, nationalism, patriotism and dedication for the nation.

The National Seminar aims at a meaningful and purposeful deliberation amongst a galaxy of academics and intellectuals, over this very relevant and important topic. The ideas, views and conclusions are supposed to be a valuable feedback and suggestions for the Govt. for further improvement in the path of actualization of the dream of positioning India as the World Leader.

Both Topics:

- 1. Vision of New India: A Transdisciplinary perspective (Social, Economic and Political) वृत्त के नए भारत : एक पारंपरिक (सामाजिक, आर्थिक और राजनीतिक)
- 2. Progress in Science and Technology and its Application in Agriculture, Industry, Trade and Commerce and Infrastructure. विज्ञान के प्रगति और उनका अनुप्रयोग कृषि, उद्योग, व्यापार और वाणिज्य में प्रगति

Respected Sir/Madam,
We have the pleasure to invite you in International Seminar on "Challenges To Ecosystem & Environment Towards Sustainable Development" organized by Paryavaran Mitra Samiti in association with Govt. P.G. College, Bilaspur, Rampur.

About the Seminar:
The last century was unique in the history of mankind. There was several development that took place during this century which have multiple effects on the physical & cultural conditions of the earth and its environment. Among them some are very remarkable such as explosion of population, developments in the fields of science, technology, transport, information industry, urbanization and growth of Philosophy of consumption, marketing, transport & quick diffusion in information, growth in accessibility, exploration of natural resources, demand and supply of resources to meet out the human needs and improve the quality of life. These factors not only raised the appetite of man but also provoked people to exploit the natural resources recklessly causing various physical, biological, environmental, ecological problems, loss of bio diversity and increase in occurrence and severeness of natural hazards.

Challenges to Ecosystem & Environment Towards Sustainable Development seeks to wide discussions on such problems. The main theme will revolve round the following heads:

- Water Resources In India
- Impact of Climate Change
- Resource Utilization & Conservation
- Environment & Sustainable Development
- Challenges to Bio-diversity
- Challenges to E-Waste
- Impact of Green Revolution
- Agriculture and Organic Farming
- Urbanization & Environment
- Deforestation & Pollution

Population Growth & Environment

- Disaster Management
- Effect of Radiation
- Success of Swachh Bharat Abhiyan
- Smart City Concept - Pros & Cons
- Disparity in Development

About The P.M.S.:
Paryavaran Mitra Samiti was registered on 3rd Nov, 2004 but this Society was working for 5 years before its registration. P.M.S. works for general awareness about environment protection. It organizes rallies, workshops, competitions, plantation, street plays, stage shows & film making. It has produced 5 short movies named- "Wag Ki Zaron" (Water Conservation)", "Zabrehi Dhan" (Electronic Waste)", "Jeevan Rakha (River Conservation)", "Ek Prayan (Swachh Bharat Abhiyan)", "Life Style", "Jal" and "Jimm". These all can be watched on Youtube.

Paryavaran Mitra Samiti organised Four international seminars on 19th & 20th December 2015, on 26th Feb 2017, 25 Feb 2018 and 24 Feb, 2019. The seminars were very successful and were highly appreciated by the academic society.

NATIONAL CONFERENCE

on

"Our Environment: Explore, Care and Share"

25-26 February 2016

Sponsored by :

Dept. of Higher Education, Govt. of U.P.

Under the auspices of:

**Govt. P.G. College, Bilaspur
Rampur (U.P.)-244 901**

Invitation

On behalf of the organizing committee, we extend an invitation to you all to participate in National Conference on **"Our Environment: Explore, Care and Share"**, being organized by the Government P.G. College, Bilaspur, Rampur (U.P.) on 25-26th February 2016. It will provide a forum to eminent scientists, academicians, naturalists and research scholars from various specialities for the presentation of their views and interaction with experts.

Bilaspur

Welcome to Bilaspur, a small but beautiful town in Rampur district in western U.P. located on the Delhi-Rampur-Nainital National Highway [NH 27] at a distance of about 30 km from Rampur. This town is known for its rich agriculture farms and beautiful landscape. The college provides a peace hub to the seekers of higher-education away from the noise and hustle bustle of city. College lawns are decked with rich flora.

Focal Theme

Issues and concerns related to environment have occupied dominant space in the present-day discourse. Ozone layer depletion, global warming, green house effect, change in climate pattern are some of the pernicious environmental degradations which are the result of our indiscriminate exploitation of natural resources, rapid industrialization and the pervading culture of consumerism. The problem is existential, so the challenge before us is to arrest this disastrous change. It is not that we have remained loath to the problem. Now the world is rallying to curb green house emissions. We have come a long way from Rio-earth Summit, signing of Kyoto-protocol, Copenhagen Summit to the recently concluded 12-day Paris climate summit or COP21, as it is popularly known. More than 170 countries, representing over 91% of world's CO2 emissions, assembled to set an effective climate regime in place. World leaders agreed to move towards a path that ensures the increase in global temperature remains limited to 2°C above preindustrial levels.

No doubt, developing societies are unwilling to compromise the Corban space and growth remains the biggest imperative but we believe that development and protecting the environment are not competing goals. Our common task is to imbibe and popularize the concept of sustainable development. Development of new and green technology is the need of the hour. We have to redefine our priorities. It all requires a paradigm shift in our approach and thinking. Engagement of members of civil society is of utmost importance in our endeavor to provide a better,

just, equitable and sustainable future. There is urgent need to create mass awareness and build-up an environment friendly culture. We have ensure that every one is able to live a life worth living on a planet worth living on. Here-in lies the future of our posterity.

The present seminar intends to focus on these pertinent issues of our times. This symposia provides a platform for not only dissemination of information and knowledge but also suggesting affirmative actions by building-up mass awareness for conservation and preservation of our environment which is common heritage of mankind.

Sub themes :

1. Current trends in environmental studies
2. Impact of human activities on environment
3. Environment, methods and strategies
4. Environment and Ecology
5. Environment, society and culture
6. Environment and health
7. Environment and bio-diversity
8. Environment and sustainable development
9. Environment and politics

Activities :

1. The conference will comprise of invited lectures by eminent scientists (25-30 minutes each).
2. Oral Presentations by the delegates (10-12 minutes each).
3. Presentation by young researchers (below 35) under young scientist category (10-12 minutes each) to be judged by the panel of experts for award of best presentation.

Submission of Paper/Article/Abstract

For conference on **"Our Environment: Explore, Care and Share"** participants are requested to send their Full paper(s)/Articles/Abstract online to the organizing secretary (**e-mail to bilaspurconference@gmail.com**). Selected papers will be published in the proceedings of the conference.

The hard copy of Paper/Article/Abstract along with CD should be sent to organizing secretary/convener on or before 12th of Feb. 2016.

The Paper/Article/Abstract may be sent in English (MS Word; Times New Roman 12 pitch font, using single line space) or Hindi (Krutidev-010 font 14 pitch font, using single space).
